DEAR MRS. JEANKY MENDEZ,

With a formal background in Front-end Developer, paired with a passion for crafting intuitive user interfaces and fascinating website design ideas. I am enthusiastic about the opportunity to contribute to the team and help drive innovation to the company.

As an College student currently from the Holy Angel University with a Bachelors of Information Technology Web development branch, I have the required training needed for the Front-end Developer position at this company. With my 3 years of dedication from myself improving or learning to improve my skills to get the required skills for this position, I have proven track record delivering high-quality web applications that prioritize both aesthetics and functionality. Proficient in HTML, CSS, and Javascript, I have deployed responsive and simple portfolio website showcasing my previous team projects also with my contribution in it of course.

I am particularly drawn to this Company because of its commitment to innovation and its collaborative work culture and environment. I eager and excited to contribute and work to your team and play my role as an front-end developer with my problem solving skills solutions that can drive the business growth and interest to customer satisfaction and among businesses.

Thank you for considering my application. I am excited about the opportunity to discuss how my skills and experience align with the needs of this Company. Do not hesitate to reach out if you have any questions or need further clarification of my experience. I would love to meet with you and discuss the position much detailed.

Sincerely,

Renz Andrew D. Vitug
